

I would like to ask that the FCC allow continued use of FM translator services. My family and I listen to K-LOVE and love that even though we are in different areas we can still hear the same great Christian music. K-LOVE has also personally served me as a resident of Oklahoma City. I can drive around the country knowing that I will still get K-LOVE even though my travels take me far from home. It would be very disturbing to me if K-LOVE were to be displaced by an LPFM broadcaster providing other programming. Good Contemporary Christian stations are very hard to find and very hard to maintain. Even though K-LOVE is based out of CA I support them each month so they can continue broadcasting in my local area. K-LOVE provides clean music, great entertainment, and a wonderful collection of conservative news briefs. Please do not let K-LOVE be replaced by LPFM.

Thank you,
Kenna Gathright
